

Ben Millen

Prop Maker/Artist

Who are you? who? who?

I graduated from Nottingham Trent University in 2021 with a BA (Hons) in Design for Film and Television. Since then, I've gained incredible industry experience working on productions like Ghostbusters: Frozen Empire and two seasons of Silo for Apple TV, as well as building props for various other projects from my home workshop. Creativity is a lifelong passion of mine, backed by years of hands-on experience in art, design, and making. I thrive in collaborative team environments, love getting my hands dirty, and am always ready to put in the extra hours to get a piece looking exactly right.
